

HPD UNIQUE IDENTIFIER: 648062976
HPD UNIQUE PRODUCT ID: Not provided.
CLASSIFICATION: 09 68 13 Tile Carpeting
PRODUCT DESCRIPTION: Modular commercial carpet tile with solution-dyed Nylon 6 face fiber and thermoplastic polyolefin (TPO) backing system.
Product incorporates inherent in-fiber stain resistance and a non-fluorinated, polymer-based topical soil-release finish applied post-tufting.

Section 1: SummaryBasic Method / Product Threshold

CONTENT INVENTORY

Inventory Reporting Format	Residuals/Impurities Evaluation	For all contents above the threshold, the manufacturer has:
→ Basic Method	→ Completed	
Threshold Disclosed Per	Explanation(s) provided :	Characterized
→ Product	Yes	Provided weight and role.
Threshold Level		Screened
→ 100 ppm		Provided screening results using HPDC-approved methods.
		Identified
		Provided name and CAS RN or other identifier.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

PRODUCT | MATERIAL OR SUBSTANCE | RESIDUAL OR IMPURITY

BM-1, LT-1
Nanomaterial ... No

INVENTORY AND SCREENING NOTES:

• Hazard classifications for pigments, glass fibers, and UV stabilizers relate to raw material handling and are not indicative of exposure in the installed product. • Manufacturer continues to evaluate raw materials for opportunities to reduce health and environmental impacts. • No antimicrobial or biocidal treatments are intentionally added. Certain substances screened as BM-1, LT-1, or LT-P1 are present due to hazard classifications associated with occupational exposure or particulate inhalation during manufacturing. These classifications do not indicate increased risk under normal conditions of product use, and no expected route of exposure exists in the finished installed product. References • HPD Open Standard v2.3 • GreenScreen® for Safer Chemicals • SGS Test Reports (Halogen, PFAS, RoHS, Heavy Metals)

*Form-Specific Hazard: This substance's GreenScreen Benchmark or List Translator score and the applicable hazards are related to particulate inhalation, which is expected to occur only during manufacture, installation, maintenance, or demolition, due to activities such as sawing, sanding, grinding, or intensive cleaning. For this reason, this score is intentionally omitted from the "Contents highest concern" line above. See HPDC's Special Conditions policy for more information.

VOLATILE ORGANIC COMPOUND (VOC) CONTENT
VOC Content data is not applicable for this product category.

COMPLIANCE See Section 3 for additional listings.
VOC emissions: CRI Green Label Plus - Carpets
LCA: Environmental Product Declaration (EPD) by EPD Hub
Multi-attribute: SGLS Singapore Green Labelling Scheme
Material Health: ILFI Declare - LBC Red List Free

CONSISTENCY WITH OTHER PROGRAMS

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 3.0, available on the HPDC website at: www.hpd-collaborative.org/hpd-3-0-standard

SUS-PAC® COMMERCIAL CARPET TILE

PRODUCT THRESHOLD: 100 ppm	RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes
RESIDUALS AND IMPURITIES NOTES: Residuals and impurities were evaluated and are disclosed where applicable in accordance with HPDC best practices and supplier disclosures. All contents above the reporting threshold are identified with chemical name or appropriate identifier, role, and approximate percentage ranges. All contents above the reporting threshold were screened against HPD Priority Hazard Lists using HPDC-approved hazard screening methods, including GreenScreen® and List Translator.	
OTHER PRODUCT NOTES: Certain substances screened as BM-1, LT-1, or LT-P1 are present due to hazard classifications associated with occupational exposure or particulate inhalation during manufacturing. These classifications do not indicate increased risk under normal conditions of product use, and no expected route of exposure exists in the finished installed product.	
Independent third-party laboratory testing confirms compliance with EU RoHS requirements and demonstrates no detectable fluorine and no detectable PFOS or PFOA in the finished product. Hazard classifications associated with certain substances are based on raw material handling and do not represent exposure conditions during normal product use.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

ADHESIVES

MANUFACTURER (OR GENERIC): **Generic**

HPD URL: <https://carpet-rug.org/testing/green-label-plus/testing-protocol-and-requirements/>

ACCESSORY TYPE: **Adhesive**

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: Installation of this product requires the use of an appropriate adhesive or installation system. Accessories such as adhesives are specified separately by the installer or project requirements and are not included within the scope of this Health Product Declaration. Information relating to the contents of these related products should be obtained from their applicable Health Product Declarations, where available.

Section 5: General Notes

- No substances on the HPD Priority Hazard Lists are present above the reporting threshold except where noted.
- Hazard classifications associated with certain substances are based on occupational exposure during manufacturing and do not represent exposure conditions during normal product use.
- Product contains no intentionally added fluorinated compounds (PFAS).
- Product does not intentionally contain PVC, phthalates, or halogenated flame retardants.
- Hazard classifications for pigments, glass fibers, and UV stabilizers are primarily associated with raw material handling and occupational exposure and are not indicative of exposure under normal conditions of use in the installed product.
- No antimicrobial or biocidal treatments are intentionally added.
- Independent third-party laboratory testing of finished product samples supports the statements above.

MANUFACTURER INFORMATION

MANUFACTURER: **Stitches And Gauge International Pte. Ltd.**
 ADDRESS: **18 Tampines Industrial Cres**
#07-07A Space@Tampines,
Singapore, Singapore 528605
 COUNTRY: **Singapore**

WEBSITE: **<http://stitchesandgauge.com/>**
 CONTACT NAME: **Edmund Goh**
 TITLE: **Executive Director**
 PHONE: **+65 8530 2122**
 EMAIL: **compliance@stitchesandgauge.com**

The listed contact is responsible for the validity of this HPD and attests that it is accurate and complete to the best of his or her knowledge.

Preparer	Third party preparer, if not self-prepared by manufacturer
Applicable facilities	Manufacturing sites to which testing applies

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,*
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
